STATEMENT OF UNDERSTANDING

Seneca Anderson, L.Ac & Alice Honican, L.Ac. are nationally certified and Georgia state licensed Acupuncturists. *Acupuncture is a form of therapy developed from traditional and modern oriental concepts for health care that employs oriental medical techniques, treatment, and adjunct therapies for the promotion, maintenance, and restoration of health and the prevention of disease.*

Cristina McMullen holds a Bachelor of Science in Complimentary & Alternative Medicine. She is also a Certified Wellness Coach & Certified Bio-Energetic Practitioner.

Neither **Seneca Anderson, L.Ac., Alice Honican, L.Ac., nor Cristina McMullen** represent themselves as medical doctors. The Longevity Health Center encourages you to see your physician if you are interested in medical diagnosis and treatment.

Acupuncture point evaluation will reveal "**disturbance signals**" for bacteria, viruses, environmental pollutants, etc. The modalities employed by **Seneca Anderson, L.Ac., Alice Honican, L.Ac. and Cristina McMullen** are not approved for any sort of medical evaluation. *Keep in mind that oriental medicine is a completely different paradigm than modern scientific medicine. Rather these are techniques of modern acupuncture and are utilized to enhance energy flow, in accordance with the principles of oriental medicine. Our experience is that often times these "disturbance signals" can not be corroborated by standard laboratory testing. Our clients usually want to know what sorts of disturbances their acupuncture point evaluation reveals, and we at Longevity Health Center believe our clients have the right to know the results of their testing. This evaluation should in no way be construed as a medical diagnosis. We are not qualified to make any such diagnosis. This is simply information we utilize in guiding our acupuncture treatment.*

I understand that neither Seneca Anderson, L.Ac., Alice Honican, L.Ac. or any of their associates or staff are medical doctors. I choose to undergo an evaluation and treatment in accordance with oriental medical principles, utilizing techniques of traditional and modern acupuncture.

I have read and understand this STATEMENT OF UNDERSTANDING.
